DETAILED ACTION

Reasons for Allowance

1. Claims 1-5 are allowed.
2. The following is an examiner's statement of reasons for allowance:

Claim 1 recites a first current mirror transistor having a base which is connectable to a power transistor and a collector, a RF detection means connected to the collector of said first current mirror transistor and a biasing means for biasing said RF detection means connected to said collector of said first current mirror and said RF detection means, in combination with other limitations of the claims. Since claims 2-5 dependent from claim 1, are also allowable for same reasons.

These features in combination with other elements of the claims are neither disclosed nor suggested by the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
